PROJECT TITLE: BOOKMARKED.

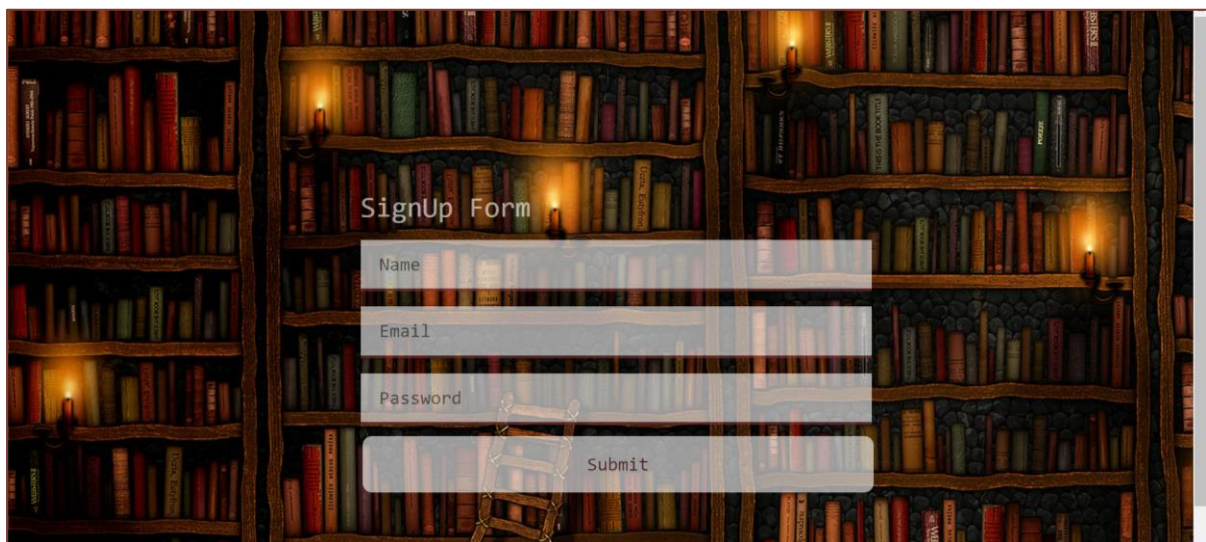

OVERVIEW:

Bookmarked lets users who love reading books create and personalise their own profile on our website and connect with fellow book lovers.

GOALS:-

->The reader should be able to customise their reader profile:

-> share and borrow books

Working methodology :-

    ->Customize their reader profile -

- Add their favourite quote
- Their favourite book
- Their top 3 authors
- A book they would recommend
- And more

    ->Share and borrow books-

- When user1 sees the wishlist of user2 and sees a book they have
- User1 can decide to lend it to user2 via mail.

Specifications:Tech stack:

- -Visual Studio:
    - -Css(Styling),
    - -Html(Functionality),
    - -Bootstrap(Responsive Webpage),
    - -Javascript, Nodejs , Mongodb.
